

SafeSport instructions for PR/CAN Referees

All referees that work at USA Volleyball events must complete SafeSport. If you are not a USA Volleyball member, you must still complete SafeSport using these instructions.

Here are a couple of points to remember. First, there are actually four modules (including the USAV intro module that must be completed to finish the course and get credit). Each module has its own certificate so remember that just because you receive one certificate does NOT mean you are done.

Second, this course will be good for two seasons, meaning once completed the individual will meet the SafeSport training requirements for this season as well as the 2018-2019 season.

Everyone who completed the old course last year is grandfathered in for this season, however, it is highly recommended that you review this course as quite a bit of new information is included.

Finally remember that even if you have completed the SafeSport requirement, you still need to complete the Foreign Participant Form and pay the \$10 insurance fee. This form and fee only need to be completed once each season.

To Register and take the free SafeSport training through USA Volleyball:

- Go to:
https://webpoint.usavolleyball.org/wp15/Events2/Registrations/Register.wp?res_EventID=11653
- Complete the form to register for SafeSport.
- To access coursework, click on the Log Into USAV Academy button to jump to the Academy where you will watch the modules.

The modules do not need to be watched all at the same time. Should you need to return to your coursework at a later time:

- Go to <https://webpoint.usavolleyball.org/> and log into your account.
 - You may need to request your credentials. If so, click on the Request a Login Account and enter your information.

- Click on the Log into USAV Academy button to jump to the Academy where you can finish the modules/coursework.

Upon completion you will receive a SafeSport certificate that is good for this season and the 2018-2019 season.
